Subject: Historic District legislation

I strongly oppose this bill. I have lived in, owned, and listed and sold properties in the Heritage Hill Historic District for 20 years. I love my neighborhood and the people in it. I strongly oppose any changes to the Historic District rules. We maintain strong property values in our neighborhood BECAUSE of the historic preservation guidelines and rules. I am very disturbed that this bill is being pushed through quickly, without any regard to the opinions of the people it actually involves. If this is allowed to pass, I believe our property values will go down, and any improvements we have spent money on will be devalued if going forward, owners will not have to maintain the same standards. I bought property here BECAUSE of the standards.
